Array

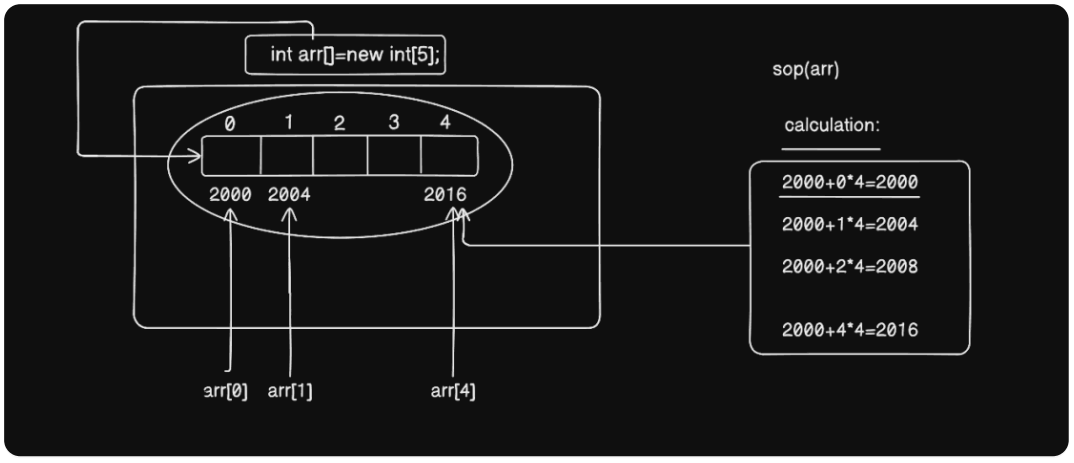

27 June 2026 09:09

```
int a1=10;
int a2=20;
int a3=10;
```

? **We need to store marks of 100 students**

Why index starts with zero

How to take input from user

```
Scanner sc=new Scanner(System.in);
```

Note:

Method	Use	Stop at
`next()`	Read a single word/token	Space, tab, or newLine
`nextLine()`	Read the entire line	NewLine (Enter)

H.W

- [ ] 1 Find max and min
- [ ] 2 Print elements from array at even index and odd index
- [ ] 3 Count sum of even values and odd values
- [ ] 4 Find index of given value
- [ ] 5 Print array in reverse order
- [ ] 6 Copy one array into another array
- [ ] 7 Sorting an array
